About ENYA

The Emerging New York Architects (ENYA) American Institute of Architects (AIA) New York Chapter is one of the most active young architect groups in the country. At the national level, ENYA falls under the umbrella of the Young Architects Forum, an AIA Knowledge Community that provides national advocacy and leadership for the group. In conjunction with AIA New York, ENYA develops its own programming that addresses issues specific to the New York City audience.

AIA National defines membership in young architects' groups as open to "professionals who have been licensed 10 years or fewer." However, ENYA is an equal opportunity committee and welcomes participation from anyone willing to promote the positive development of the profession and its practitioners. ENYA strives to meet all skill levels, scholastic backgrounds and professional interests, and hosts programs of general interest to all architects. In this way, ENYA will continue to educate, expand and improve the understanding and interpretation of New York City's architectural environment with a focus on topics of interest to young architects.
